This advance decision to refuse treatment has been written by me to specify **in advance** which treatments I don't want in the future.

These are my decisions about my healthcare, in the event that I have lost mental capacity and cannot consent to or refuse treatment.

This advance decision replaces any previous decision I have made.

Advice to the carer reading this document: Please check

- Please do not assume that I have lost mental capacity before any actions are taken.

 I might need help and time to communicate when the time comes to need to make a decision.
- If I have lost mental capacity for a particular decision check that my advance decision is valid, and applicable to the circumstances that exist at the time.
- If the professionals are satisfied that this advance decision is valid and applicable this
 decision becomes legally binding and must be followed, including checking that it is has not
 been varied or revoked by me either verbally or in writing since it was made.
 Please share this information with people who are involved in my treatment and need to know
 about it.
- Please also check if I have made an advance statement about my preferences, wishes, beliefs, values and feeling that might be relevant to this advance decision.

This advance decision does not refuse the offer or provision of basic care, support and comfort
